

EXXON MOBIL GRANT TO MOUNT ARLINGTON SCHOOL:

Exxon and Mobil are fueling young minds and helping create “aha moments” through the Educational Alliance. It is part of their ongoing effort to support science, technology, engineering and math (STEM) education within the communities they serve. Exxon Mobil helps to give students the tools and technology they need to connect what they learn in the classroom with what they see in the real world. This year the Mount Arlington Exxon Station received \$500 in funds for the Mount Arlington School. The funds are distributed annually through the program through the efforts of owner Wayne DeKorte. The funds will be used to enhance the Solar Car Program allowing students to use a 3-D printer to design the chassis and parts for their cars. The funds are distributed annually through the program through the efforts of owner Wayne DeKorte.
