# HONORING EARTH DAY CHALLENGE GRADES 3-5

Class code a6ydsiu [ ]

The Mount Arlington School District Green Team invites you to participate in our

## Annual Green Initiatives Challenge: Celebrating Earth Day 50th

- As in past years, students are challenged to complete a project, and this year you can participate on-line by viewing a series of videos hosted by the *Alliance to Save Energy*.
- There are a total of 5 videos to view, and we suggest you invite a family member to view as it can help your family save energy at home.
- As you review each video take some notes of some key facts as an environmental logbook which you can share with your family. Use the log book to help you complete the project google form at the end.
- For those interested in art, you can submit a poster about one or more of the videos also.
- For those interested in technical or creative writing, you can enter a poem or essay on one or more of the video topics.
- The Grade with the most students responding will have a celebration sponsored by the Alliance to Save Energy.
- Last year the Alliance provided a pizza party for Grade 5.

More information about *PowerSave* now known as *emPowered Schools* is provided at the following link:  
<https://www.ase.org/projects/powersave-schools>

Information highlighting our District's success was recently showcased on the Alliance's National Blog: <https://www.ase.org/blog>
