

SPREAD THE LOVE PROJECT

MOUNT ARLINGTON STUDENTS SPREAD THE LOVE: Peer Leaders (L to R) Thomas McGlynn, Madison Moran, Madalyn Pflug, Ashley Zheng, and Marlon Mendoza coordinated a Teddy Bear collection drive which was distributed at the Goryeb Children’s Hospital at Morristown Memorial.

Spread the Love Project Leader Madison Moran planned the program. The students printed out flyers and went into classrooms to promote the program. The Peer Leaders also created a bulletin board drawing attention to the Spread the Love Project. “Over the course of about two weeks, we received 157 stuffed animals! We used our enrichment time to package the stuffed animals for the children. It is so amazing to do something kind and make (especially) children happy while they are in the hospital. The whole process was very gratifying. The hospital staff was overjoyed when they saw the 5 boxes overflowing with donations, and told us they would disperse them to many areas in Goryeb such as the Emergency Room and the overnight and day center. I hope the kids enjoy their Valentine’s Day gifts and that we accomplished what we set out to do: *Spread the Love.*”
